

Rangi Ruru Girls' School

Year 12 Photography – Level 2

Learning	Achievement standard Number	Title	Credits	Assessment Mode
Students will learn about the principles of digital photography including studio and field photography as well as elements of post-production. They are required to think and work independently, selecting their own subject matter based on research. They will learn how to generate and develop ideas through practical application, using a range of media as appropriate to their investigation (photography, drawing, printmaking, sculpture, maquette etc). These students will gain confidence in establishing a personalised learning programme.	AS 91307 2.1 Photography Version 2	Demonstrate an understanding of methods and ideas from established practice appropriate to Photography.	4	Internal
	AS 91312 2.2 Photography Version 2	Use drawing methods to apply knowledge of conventions appropriate to Photography	4	Internal
